

Road Ordinance Amendments

Section 1.4

New 1.4.1 All roads constructed in approved subdivisions or approved for construction as part of subdivision approval prior to the original adoption of this ordinance March 18, 2008 shall be constructed in accordance with the design and construction standards that were contained in the Planning Board Standards for reviewing land subdivisions that was adopted in 1976. Any road approved for construction after the adoption of this ordinance March 18, 2008 shall comply with this ordinance.

New 1.4.2 Pavement requirements for roads constructed prior to the adoption of this ordinance and not accepted as Town owned roads need to have a minimum of three (3) inches of pavement in place prior to being placed on the warrant for acceptance at town meeting.

Proof of Depth is required and needs to be documented. This can be accomplished in two ways.

1: core drill with a 2-inch diameter bit at 500-foot intervals with no less than 3 cores along the centerline. The code enforcement officer will verify the depth of the pavement on site.

2: Written certification from a professional engineer that the pavement depth is at least 3 inches.

1.4.1 Will become 1.4.3

1.4.2 Will become 1.4.4

1.4.3 Will become 1.4.5
